**Description** **Highlights** **Features** **Specifications** **Accessories**

Feature	Benefit
Two digital video options available:	New video expansion slot allows monitor to display SDI or DV via optional video input cards.
Improved contrast	A dark-tint CRT and new phosphor provide improved contrast
Trinitron picture tube	Provides a high resolution picture. Horizontal resolution is more than 600 TV lines at the center of the picture.
Improved frequency response	10.0 MHz RGB
On screen display control	Color temperature is selectable, and other setup conditions can be determined in the on screen display menus in five languages.
Two color systems available	The monitor can display PAL, and NTSC signals. The appropriate color system is selected automatically.
Scan size selection	Scan size is selectable from among 5% underscan, normal scan (7% overscan) and 20% overscan.
Color temperature selection	4 selectable color temperatures: 6500K/5600K/9300K/USER (6500K)
Remote control function	Equipped with two types of remote control interfaces; Serial and Parallel.
Side covers and control panel	The side covers protect the ventilation holes from splashes. The control panel cover protects the control button on the front panel from undesired touching.
IzzitOn™ System	Provides visual recording confirmation
